BUILDING BRANDS

ABC Media Production creates meaningful conversations that sparks engagement, loyalty and advocacy. And that's just the tip of the iceberg...

Established in Dubai since 2014, we have been listening to how our audience speaks about your brand, your competitors, your offerings. Pulling these insights together we help your brand deliver more value and satisfaction to the customers by combining your vision for the brand with market research and customer trends, we define strategies, creative and vibrant cost effective solutions for ATL and BTL marketing initiatives.

VIDEOGRAPHY

A professional videographer is shown from behind, in silhouette, operating a large professional video camera. The scene is set on a stage or event space, with several people in the background who are out of focus. The lighting is dramatic, with strong blue and yellow highlights. The overall mood is professional and dynamic.

We create unique brand stories with the help of our in-house film and studio crew, having worked in feature films, broadcast television, commercials, sports, music videos, events and corporate brand videos. Our talented team of videographers, work smartly to produce seamless high-quality videos that capture every excitement from the best angle while exposing the true color, glamour, emotions, and poise of any event.

PRINT AND INSTALLATION

A full fledged print and production house supported by a team of experts, sales executives and press specialists. Our services include printing and production of brochures, magazines, flyers, giveaways, calendars and packaging. We specialize in offset and digital printing, providing you with top quality cost effective solutions. We also offer customized packaging for your brand requirements, whether it's welcome packs, gifts or mass produced goods.

Each project goes through a process internally before being delivered to the client followed by a quality check and then packaging followed by delivery.

Along with our in-house printing, we expanded our services further into large scale signages. Our manufacturing facility is equipped to provide complete signage solutions right from concept to design to printing and installation. We specialize in print and digital signages.

The website is your virtual identity. A great web design and development and online user experience changes the perception of the brand. It increases the brand love with an existing set of clients or helps converting a lead into a client. Our web design services are built on a process that begins with understanding the requirement of a customer, how their clients interact with the web online and help them build a website that gives a pleasant user experience which is fun for their clients to engage with.

We do not just focus on the design, we also keep in mind the technology, brand, content, analytics and business throughout the process. We work very closely with our clients and provide mobile application design & development, web optimization and UI & UX research and design.

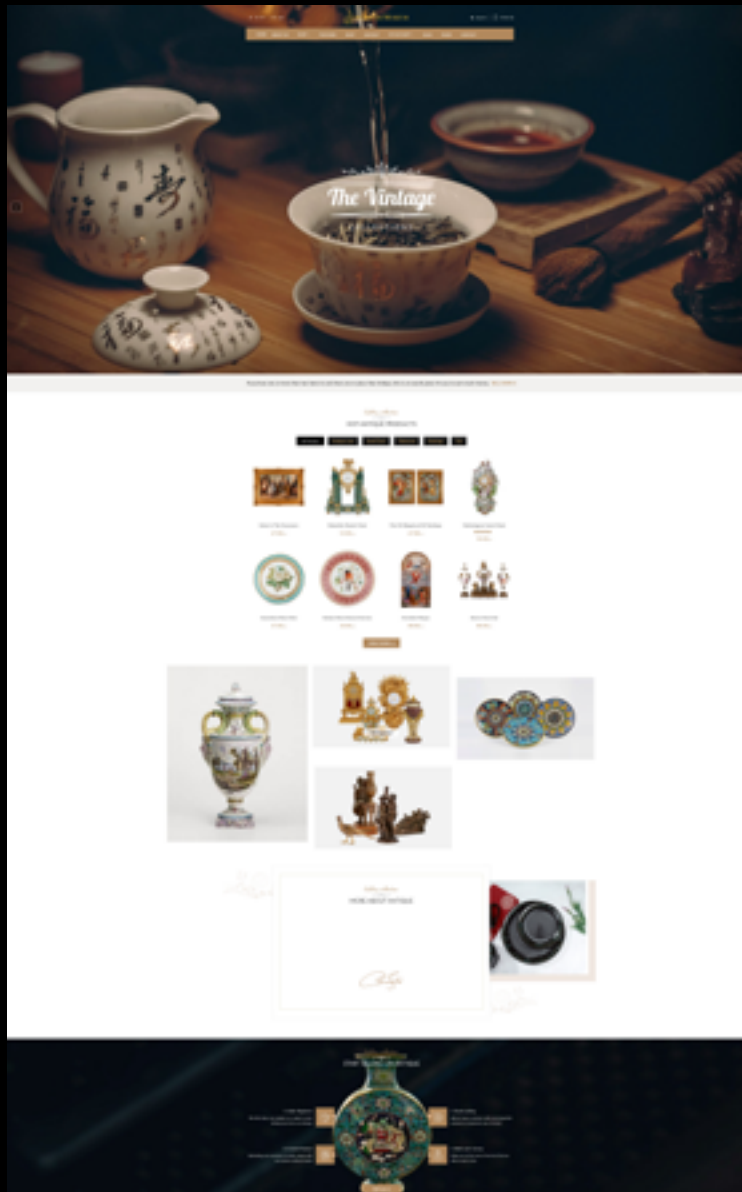

We use usability testing, rapid prototyping, and iterative development while designing and developing your website or mobile app to bridge the gap between digital experiences the users want and what they interact with.

We further help our clients in maintaining the web by monitoring, measuring and optimizing the work we have delivered.

Services include:

- Website Design and Development
- Domain Purchasing and Hosting
- Mobile App Design & Development
- UX Research, Strategy, Design & Optimization
